

There once was a young lady whose name was Jane Fox.
She had her own company called FOX IN A BOX.
One day this lady had a little baby.
A Boy!
Oh Joy!
For months the lady changed and fed and burped.
For months the baby laughed and ate and urped.
One day the lady had a yearning.
She exclaimed, "I need to make an earning!"
Off went the baby to a house with a sitter.
Away went the lady with her mouse and computer.
Now, the lady and the baby still wanted to play.
So, the lady arranged to work 3 days and to have 4 days for play.
The lady was happy.
The baby was happy.
The lady's clients were really, really happy.
The lady explained I bought new toys...
And not just toys for the boy.
We've added a scanner and computer that are faster than a speeding bullet!
Your projects and jobs will be finished before you know it.
Next time you have a project that needs to get out,
Give the lady a shout!
